Formcode Digital Creative Careers

Front-end Web Developer

Employment Type: Contract/Full
Minimum Experience: Experienced

Job Description:

Applicants must be local and willing to work at our Royal Oak MI office location.

Front-end Developer

Formcode Digital Creative— we are leaders in our industry crafting websites and web applications that are focused on high-end results and top-notch experiences.

We are looking for a front-end web developer that can join our team and has a passion for developing forward-thinking web strategies.

Front-end Developer:

- Minimum 2 years' experience as a Front-end Web Developer with JavaScript and Node.js experience - Strong knowledge of popular protocols and standards, design patterns, and programming concepts- NoSQL Database experience- BS in Computer Science or related.
- Experience in Security or authentications preferred, but not required.

What You Will Be Doing:

- Creating user information solutions by developing, implementing, and maintaining Internet/intranet websites and applications. Collaborate with engineers and management on various projects.

Required Skills:

- JavaScript, NodeJS, MongoDB, MySQL, PHP, Security

Other Skills (nice to haves)

- Experience/knowledge in Wordpress
- Experience/knowledge in eCommerce platforms
- Javascript Framework knowledge (Angular, React, BackboneJS, Handlebars)

We want someone who is:

- Smart with a creative edge
- Works efficiently
- Has a willingness to learn and be challenged
- Is a self-starter

If you can create engaging websites/web applications, have a passion for developing and meet the criteria of what was just said above - then we're definitely interested in meeting you!

How to apply; Send us:

- **Address**
- **LinkedIn Profile**
- **Highest Education Obtained**
- **College/University**
- **Detail on what makes you unique**
- **Website, Blog or Portfolio**
- **Desired Salary**
- **Earliest Start Date**
